

Group number: DEC1613

Project title: Investigating voltage increases in distributed generation power systems

Client &/Advisor: Mark Scheibe, Anne Kimber, Zhaoyu Wang

Team Members/Role: Adam Beck: Team Leader

Trevor Andersen: Communications Leader

Matthew Ladd: Webmaster

Weekly Summary

Our team had a meeting with George about our project and where we were at the moment. We failed to get a meeting with our Advisors due to complications. We reacquainted ourselves with the Windmil software and our models. We each choose a substation that we would do the testing for.

Past week accomplishments

Got back in contact with team and set up meeting with George and times that we could work during the week on the project.

Pending issues

Team needs to reorganize our schedule for the semester.

Individual contributions

<u>Name</u>	Individual Contribution	Hours this week	Hours Cumulative
Andersen	Monmouth Substation	3	4
Beck	Bernard Substation	3	4
Ladd	Backbone Substation	3	4

Plan for coming week

Meet with Advisors. Start to give customers on feeders solar and causing overvoltage.
